# About Us

Kingdom Hives was created early 2016 by a close friend Steven Maclean and myself (Blake Amann) after purchasing our first hives just one year earlier. We started off literally watching a few youtube videos, leading to buying 2 hives, which in turn grew to a fair few more by the end of the season. We were hooked haha.

I think one of the reasons we are so **passionate about beekeeping** to this day is that there is multiple benefits not just to ourselves, but in many other ways too.
